

ISO/IEC 27001:2022 (ELOT EN ISO/IEC 27001:2023) INFORMATION SECURITY MANAGEMENT

**"INFORMATION SECURITY, CYBERSECURITY AND PRIVACY
PROTECTION - INFORMATION SECURITY MANAGEMENT
SYSTEMS - REQUIREMENTS"**

WHAT IS ISO/IEC 27001:2022?

ISO/IEC 27001:2022 is a standard that specifies the requirements for setting up and managing an effective Information Security Management System (ISMS). It emphasizes on protecting three key aspects of information: Confidentiality, Integrity and Availability, i.e. the organization's ability to keep the information out of unauthorized people entities or processes, to keep the information complete and accurate and protected from corruption and to provide the information accessible and usable by authorized users.

WHOM IT MAY CONCERN

This standard can be applied to any organization regardless of its size and activity that wishes to demonstrate its effectiveness in ISMS to its clients, partners, suppliers or shareholders.

All large organizations, take all necessary measures for the security of data handling, including personal data of their customers, based on best international practices, and systematically invest in their infrastructure, organization and staff awareness.

BENEFITS OF ISO/IEC 27001:2022 IMPLEMENTATION AND CERTIFICATION

Information Security Management System (ISMS).

- ✓ Helps the organization to identify and control potential information security risks.
- ✓ Ensures that ISMS is aligned with the organization's business objectives and processes.
- ✓ Provides greater focus on communication, spreading the responsibility for information security further across the enterprise and business partners.
- ✓ Helps the organization to be in compliance with law or regulation related to information security
- ✓ Optimizes the business processes.
- ✓ Provides the organization with a competitive advantage, especially in cases where protection of customer information is critical.

WHY WITH EUROCERT S.A.

- ✓ We are accredited by the Greek Accreditation Board (ESYD - National Accreditation Board), member of EA-MLA and IAF. Therefore we provide internationally recognized certificates.
- ✓ We have strong and experienced staff and associates, who as auditors and / or technical experts carry out audits of high added value for your company.
- ✓ We evaluate audit reports, monitor the long-lasting improvement of the Management System of your company, plan tailored audits and keep you updated on any evolution regarding your activities
- ✓ The accreditation covers most standards and products and therefore provides combined services resulting in competitive quotations

CERTIFICATION PROCESS:

TIME, ISSUE & VALIDITY OF ISO/IEC 27001:2022 CERTIFICATION

Provided that the Certification Audit of the organization's Business Continuity Management System is successful, the Certificate is issued shortly. The ISO/IEC 27001:2022 certificate is valid for three years during which time two annual surveillance audits must take place.
